

MOAAN INDUSTRIAL TRADING EST.

**MOAAN INDUSTRIAL
TRADING CONTRACTING EST.**

WHO WE ARE

Moan industrial trading contracting est. (MITCO) is an ISO Certified, well positioned as a leading distributor and integrator of CCTV, security, safety & audio-visual products, our partners and suppliers keep us abreast with the latest in technology development and skills enhancement.

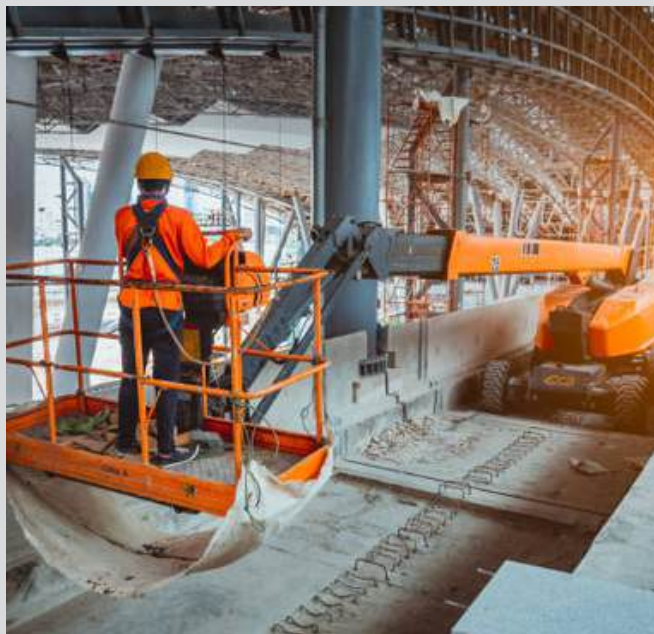

ABOUT MITCO

We are proud to be recognized as one of the fastest-growing integrators in the field of low-current systems, specializing in CCTV, security and safety systems, communication systems, audio-visual systems, HVAC, as well as fire alarm and firefighting systems. Our reputation is founded on delivering solutions that prioritize quality technical design while ensuring cost-effectiveness. As an ISO-certified company, our hands-on approach guarantees that the products and services we provide adhere to our clients' prescribed goals and exceed their expectations.

VISION & MISSION

Our mission is to create value for our clients by providing tailored, high-quality low-current systems and solutions that prioritize safety, reliability, and environmental responsibility. We aim to deliver exceptional service through continuous innovation, a strong commitment to Health, Safety, and Environment (HSE), and by fostering a culture of excellence within our team.

Our vision is to be a global leader in the low-current systems industry, setting the standard for quality, safety, and sustainability. We envision a future where our cutting-edge solutions and commitment to HSE contribute to safer, smarter, and more sustainable environments for businesses and communities worldwide.

OUR SERVICE

01 Fire Alarm & Fire Fighting Systems

We provide top-tier fire alarm system services, ensuring the safety and security of your premises. Our offerings include professional installation of advanced fire alarm systems, regular maintenance, and thorough inspections to guarantee compliance with safety regulations. With us expert team and state-of-the-art equipment, we deliver reliable and efficient fire alarm solutions tailored to your specific needs.

02 CCTV Surveillances System

Our CCTV systems provide comprehensive security solutions, tailored to meet the specific needs of our clients. We specialize in designing and installing advanced surveillance systems that ensure real-time monitoring, reliable performance, and seamless integration with existing infrastructure. With a focus on quality, innovation, and user-friendly operation, our CCTV systems deliver the highest level of security, safeguarding your assets and enhancing peace of mind.

MITCO, as a seasoned systems integrator, boasts extensive experience in engineering and designing Security and Safety Systems for large-scale installations, including hospitals, educational institutions, airports, manufacturing facilities, shopping centers, and government entities. We deliver comprehensive solutions, from conceptual design and cutting-edge technology applications to system programming and installation. Our unwavering after-sales service and reliable maintenance support reinforce the trust and confidence our clients place in us.

OUR SERVICE

03 Risk Assessment & RAM Studies

We offer comprehensive risk assessment and Reliability, Availability, and Maintainability (RAM) studies to ensure the safety and efficiency of your operations. Our risk assessments identify potential hazards, evaluate their impacts, and recommend mitigation strategies to minimize risks. Our RAM studies analyze system performance to optimize reliability, maximize availability, and streamline maintenance processes. With us expert team and thorough methodologies, we help you enhance safety, reduce downtime, and improve overall operational effectiveness.

04 HVAC Solutions

MITCO offers expert HVAC solutions designed to optimize comfort, energy efficiency, and environmental sustainability. With years of experience in engineering and implementing HVAC systems for diverse sectors, including commercial, industrial, and residential projects, we provide end-to-end services from system design and installation to commissioning and ongoing maintenance. Our commitment to quality and innovation ensures that each HVAC solution is tailored to meet the specific needs of our clients, delivering reliable performance, cost-effectiveness, and long-term satisfaction.

OUR SERVICE

05 Access Control Systems

MITCO specializes in advanced access control systems that enhance security and streamline access management for businesses and institutions. With a focus on integrating cutting-edge technology, we design and implement solutions that ensure secure, controlled entry to sensitive areas while providing comprehensive monitoring and reporting capabilities. Our expertise spans a wide range of applications, from single-door systems to complex, multi-site installations. We are dedicated to delivering access control solutions that are not only robust and reliable but also user-friendly and scalable to meet the evolving needs of our clients.

06 Audio Visual Systems

As a leader in audiovisual systems design and integration, we deliver cutting-edge solutions tailored to the corporate and public sectors. Leveraging our deep expertise in audiovisual technology, distributed AV streaming, and video/audio conferencing, we ensure our clients receive the highest level of satisfaction by meeting their specific needs. Our solutions seamlessly merge functionality with exceptional ease of use, providing an unmatched user experience.

OUR SERVICE

07 Public Address, Command & Control Centers

MITCO offers comprehensive security design, development, and oversight services to ensure the integrity and functionality of government and corporate command and operations centers. Our expertise includes mitigating real-time and future risks, both internal and external, that could jeopardize an organization's resources—whether people or assets. We deliver robust public address and command systems that enhance communication and coordination, providing a secure, reliable foundation for critical operations.

08 Communication Systems

We deliver highly efficient and cost-effective communication systems that align with the latest technological advancements. With extensive experience in the design, installation, and maintenance of complex communication networks, we are equipped to provide solutions that meet your unique needs. Whether selecting the most suitable equipment or crafting bespoke solutions, our expertise ensures that your communication systems are optimized for performance and reliability.

OUR SERVICE

09 EPC Services

MITCO offers comprehensive EPC (Engineering, Procurement, and Construction) services, delivering end-to-end solutions that take your project from concept to completion. Our multidisciplinary team excels in engineering design, meticulous procurement, and efficient construction management, ensuring that every aspect of your project is executed to the highest standards. With a focus on quality, safety, and timely delivery, we manage all phases of the project lifecycle, providing seamless integration and coordination across all disciplines. Our EPC services are tailored to meet the unique needs of each client, delivering results that are not only reliable but also cost-effective.

10 Network and IT services

MITCO provides comprehensive Network and IT services designed to enhance your organization's connectivity, performance, and security. Our expertise spans network design, implementation, and management, ensuring robust and scalable solutions tailored to your specific needs. We offer a full suite of IT services, including system integration, cybersecurity, and ongoing support, to optimize your infrastructure and safeguard your data. By leveraging the latest technologies and best practices, we deliver reliable and efficient solutions that drive operational excellence and support your strategic objectives.

ISO CERTIFIED EXCELLENCE

We proudly certified to ISO standards in 2024, we uphold the highest quality and safety benchmarks across all our services. Our commitment to excellence ensures that our fire and safety solutions, along with our CCTV and access control systems, meet rigorous international standards, providing you with the utmost reliability and peace of mind.

ONGOING & RECENT PROJECTS

01

CCTV Installation at ARAMCO Khursaniya Gas Plant, Admin Buildings

MITCO is currently undertaking a CCTV installation project at the Khursaniya Gas Plant's administrative buildings, directly for Aramco. Initiated in July, this ongoing project involves implementing a robust security system to enhance monitoring and safety across the facility. Our work reflects our commitment to delivering high-quality, reliable solutions for critical infrastructure.

03

Fire Alarm Upgrade at Aramco-Tanajib Community Buildings

MITCO successfully executed the Fire Alarm Upgrade Project at the Tanajib Community Building, serving Aramco as the end user and Naizak as the client. This 10-month project focused on upgrading the fire alarm systems to ensure compliance with the latest safety standards. Completed on schedule in May 2024, the project highlights our dedication to quality, safety, and timely delivery.

05

CCTV and Security System at Siemens Energy, Dammam

MITCO successfully completed a major CCTV and security system installation at Siemens Energy in Dammam. Finalized in June, the project involved nearly 120 cameras integrated with a cutting-edge monitoring system, fully compliant with cybersecurity standards. This large-scale project highlights our expertise in delivering advanced, reliable security solutions.

04

Fire Alarm System at Aramco Qurayyah Sea Water Plant (QSWP) Buildings

MITCO has awarded a Fire Alarm System project at the Aramco Qurayyah Sea Water Plant (QSWP), with Naizak as the client and Aramco as the end user. Starting this month, the project covers all six buildings at the facility, including full scope management of manpower and materials. We anticipate completing this comprehensive project within 8-10 months, ensuring top-quality installation and safety compliance.

04

Fire Alarm Upgrade at NOV Saudi Ltd, Dammam 2nd Industrial City

MITCO successfully completed the Fire Alarm Upgrade Project at NOV Saudi Ltd in Dammam Second Industrial City. The project, finalized in June, involved the installation of a Honeywell Notifier system, ensuring enhanced safety and compliance with industry standards. This upgrade underscores our expertise in delivering reliable fire protection solutions.

06

CCTV Installation in ARAMCO KGP SECT VAN

MITCO completed the CCTV installation at the KGP SECT Van Building in January 2024, directly for Aramco. This project involved deploying a sophisticated surveillance system to enhance security and monitoring capabilities. Our successful execution underscores our commitment to delivering high-quality solutions tailored to our client's needs.
